PMP® Certified | Cornell Certified Project Manager | Workforce Management & Strategic Capacity Planning

EXECUTIVE SUMMARY

Senior Workforce Management leader with 15+ years of experience in capacity planning, forecasting, financial workforce strategy, and operational readiness across global technology and financial-services environments. Deep experience translating workforce risk, demand variability, cost, and service-level tradeoffs into decision-ready recommendations for senior leadership, with direct experience in compliance-driven operations at American Express and complex global support environments at Uber. Known for building scalable governance, multi-scenario staffing models, BPO operating strategies, and AI/automation-informed forecasting approaches that improve flexibility, control cost, and protect operational performance.

CORE CAPABILITIES

AI-informed capacity planning & workforce strategy • Forecasting, scenario modeling & risk planning • OpEx / headcount planning & cost optimization • Executive governance & decision support • Compliance-driven operations & operational safeguards • Cross-functional stakeholder leadership • BPO / outsourced operations & vendor strategy • Erlang modeling, staffing & scheduling • WFM platform transformation & governance • Operational readiness, launches & scale • SLA / service-level management & backlog prevention • Custom GPTs & AI tools / data visualization

PROFESSIONAL EXPERIENCE

Uber Technologies Pvt Ltd | Sr Manager WFM - US&C & LATAM | Chicago, IL | Mar 2025 – Present

- Direct WFM strategy and dynamic staffing models across US&C and LATAM Community Operations, optimizing multi-million-dollar resource allocations for mission-critical workflows.
- Established WFM SOPs and executive governance mechanisms aligning Ops, Finance, CX, and Enablement around workforce priorities, financial targets, and operational risk.
- Lead executive reviews using automated forecasting algorithms and Erlang-based capacity models to surface capacity tradeoffs, forecast risk, and prevent systemic backlogs.
- Lead and mentor 5 WFM leaders across distributed regions, strengthening accountability, planning discipline, and execution consistency.
- Pioneered enterprise WFM platform deployment to establish a single source of truth for headcount governance and operational capacity analysis.

Uber Technologies Pvt Ltd | Manager WFM - Capacity Planning & Scheduling, COEs | Phoenix, AZ | Jul 2022 – Feb 2025

- Modernized capacity planning infrastructure by combining volume analytics with Erlang C modeling to align staffing agility with dynamic customer demand.
- Standardized regional forecasting methodologies and planning practices, improving consistency and enabling comparable workforce decisions across regions.
- Aligned scheduling and talent acquisition to position staffing against peak demand windows while controlling overtime exposure.
- Built real-time shrinkage and predictive demand models to optimize intraday allocation and driver-supply needs.
- Managed and developed 4 WFM capacity planners and schedulers across distributed centers of excellence.

Uber India Pvt Ltd | Manager WFM - Uber Outsourced Business in LATAM | India | Oct 2019 – Jun 2022

- Spearheaded WFM strategy and operational execution for LATAM Portuguese operations within compliance-driven customer support environments.
- Built strategic BPO vendor partnerships, aligning external delivery with internal performance metrics, SLAs, capacity requirements, and cost targets.
- Designed multi-year capacity roadmaps for business launches, seasonal surges, and long-term organizational expansion.
- Partnered with Vendor Management, Finance, Ops, and Analytics to evaluate capacity tradeoffs and maintain operational safeguards.

American Express India Pvt Ltd | WFM Business Analyst - Financial Services & Compliance Operations | India | Dec 2017 – Oct 2019

- Orchestrated workforce forecasts for compliance operations by integrating market outlooks, customer retention, and growth targets into resource planning.
- Governed intraday staffing and capacity planning in a heavily regulated financial-services environment, implementing hybrid planning frameworks to reduce compliance risk.
- Optimized shift-rotation structures and variance root-cause models to maintain peak coverage while minimizing operational overhead.

Convergys India Pvt Ltd | Analyst - Capacity Planning, Scheduling & Real Time Management | India | Mar 2011 – Dec 2017

- Managed real-time queue distribution, schedule adherence, and capacity reporting across global support teams, consistently achieving target SLAs.

SELECTED STRATEGIC IMPACT

- Enterprise platform transformation: partnered with Data Engineering on unified CRM and global capacity-planning platforms, contributing to a 12% headcount reduction and standardized data pipelines across sites.
- Cost optimization: harmonized shrinkage frameworks, holiday calendars, and PTO structures across international operations, delivering a 22% annual reduction in operational expenditure.
- Operational unit transformation: consolidated fragmented Operational Units to reduce resource ringfencing and create a more agile cross-functional operating model.
- Specialized launch readiness: architected end-to-end WFM operations for Crash & Claims and Autonomous Vehicles divisions, establishing predictive capacity and scheduling models for scalable launches and SLA compliance.

EDUCATION & CERTIFICATIONS

- PMP® Certification (Project Management Professional) – Project Management Institute | Feb 2026 – May 2026
- Project Management 360 Certification – Cornell University | Sep 2025 – Aug 2026
- Diploma in Business Administration – ICFAI, Hyderabad, India | May 2006 – Apr 2007
- Bachelors in Humanities – Delhi University, India | Jul 2000 – Aug 2001

TOOLS & METHODS

Workforce Strategy: Global Capacity Planning, Erlang Modeling, Headcount Governance, Multi-Site BPO Vendor Management, Cost Optimization, SLA Management

Technology: Enterprise WFM Platforms, Automated Forecasting, Custom GPTs & AI Tools, Data Visualization, Excel, Google Workspace

Methods: Governance & Compliance, Scenario/Risk Planning, Agile/Scrum, Operational Readiness

Languages: English (Fluent), Hindi (Native)
